Re: Happy Valley Fire Safe Council  
March 31, 2011 Meeting & Sign-in sheet  
May 5, 2011 Meeting & Sign-in sheet

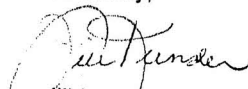

To Whom It May Concern,

The Happy Valley Fire Safe Council (HVFSC) was formed as a community outreach, education and safety group to provide fire wise methodology and practices for the residents of our area. The HVFSC is a satellite group of the El Dorado County Fire Safe Council. I originated the council in 2010 at the suggestion and encouragement of Ray Nutting. Ray was instrumental in providing contacts and resources for the inception and roll out of the HVFSC.

Attached is a copy of the March 31, 2011 HVFSC agenda and sign-in sheet. During the topic of Old Business, the group discussed the approval of our RAC Title II Grant. During that discussion, Ray offered insight into what we could expect in rolling out our project and working with the various agencies to accomplish our goal. He mentioned previous grants that he had obtained for his ranch for the purpose of fuels reduction and notified the community attendees of an additional grant he had applied for and requested the HVFSC grant be clearly marked as not to have any overlap or conflict with his project.

Ray also volunteered to host the May 5, 2011 meeting. At that meeting, in addition to the topics of discussion, Ray provided the history of his family, their ranch, and timber harvesting and mentioned his previous grants for deforesting and fuels reduction. I have enclosed a copy of the attendees at that meeting.

Sincerely,

  
Jill Kunder
